## NATIONAL COACH ACCREDITATION POLICY

### 1.0. PURPOSE

The purpose of this policy is to outline the courses that are required to be completed under Sport Aus guidelines for those who intend to coach a Rugby League or League Tag team.

# National Coach Accreditation Policy.

## 2.0. SCOPE

- i. All coaches are required to complete the relevant entry-level coaching course to coach a Rugby League team. Those coaches whose accreditation has expired but have previously completed a recognised course will be required to complete the relevant reaccreditation process.
- ii. All Coaches must have appropriate Child Safety clearances and provide proof of such to their local club and relevant governing body.

## 3.0. COACHING COURSES

The entry level coaching courses to be completed will be dependent upon the age group that will be coached:

These courses are:

- i. The Modified Games Coach (MGC) Course is designed for coaches of players aged 6-12 Years\*
- ii. The International Games Coach (IGC) Course is designed for coaches of players aged 13 Years and above\*

\*League Tag coaches are required to complete the Coaching League Tag module on top of the relevant age group specific course.

A coach must complete the course that directly relates to the age group they are coaching. For example, if a coach has a MGC Accreditation and coached the Under 12's in the previous year and progresses to coach the Under 13's in the following year, they are required to register and attend an IGC Course.

## 4.0. COURSE STRUCTURE

The courses for both the MGC and IGC courses require the participant to:

- a. Complete all online modules and assessment questions
- b. Attend all face-to-face modules

## 5.0. PRACTICAL ASSESSMENT

The practical assessment for the successful completion of the course material includes:

- a. Tackle Technique (in-course)
- b. Scrum Formation (in-course)
- c. Skill Progression (in-course)
- d. Training Session Assessment (in-course)

## 6.0. NON-COMPLIANCE

District, Divisions, Groups, Leagues and State specific rules around non-compliance are enforceable.
